INTRODUCTION

RWSSI is a principal consultancy to organisations and private families, having obtained over twenty years' experience throughout numerous countries around the world.

With extensive capabilities in Security, Surveillance and Investigation it is our aim to support you by foreseeing and overcoming risks, maintain compliance, and enabling you to achieve your ambitions safely, efficiently and successfully.

RWSSi offers professional and unbiased advice, solutions and specialist services to **Business** and **Private** clients, helping to build organisations resilience and protect their critical assets, or individuals and their families.

Preferring to adopt a proactive, preventative approach, RWSSi also has the ability to overcome new or established problems decisively, providing positive cost efficient results swiftly.

BUSINESS SOLUTIONS

Organisations are increasingly recognising that security is a necessary component to their overall resilience and risk management strategies. The appropriate protection of their people and assets allows the activities to continue, without disruption to performance or standards.

Having this assurance gives confidence to stakeholders on the reliability of doing business together. By making a relevant and proportionate investment in securing an organisation, makes it a safer place to work; provides a reliable and trusted working partnership; safeguards compliance requirements and creates opportunity to explore new markets responsibly.

Properly managed security assures continuity and contributes to a peaceful and productive work environment. If you have any of these concerns, or issues not mentioned here, please do not hesitate to get in touch.

BUSINESS SERVICES

People, property, equipment and information, in addition to your reputation, are the very core of your business. Should any of these critical aspects be harmed, damaged, lost or activities disrupted, your organisation's reliability may be cast in doubt, running the risk of reducing performance or standard levels, impacting productivity and brand image.

Forming an integral component of enterprise resilience and risk management, RWSSi services are designed to protect personnel, maintain the availability of assets, ensure the continuity of organizational activities and safeguard against loss.

Security Risk Management

Some organisations may not need the facility of full time professional security management, but that should not mean the protection of the business is any less important.

Personal Security & Close Protection

Personnel are the key aspect to any organisation – without people, no activities will be accomplished. An organisation's executive provides overall direction, motivation and authority to achieve its goals. Highly qualified, skilled and experienced personnel become a prized source of innovation; and on occasion we may ask staff to explore the unknown in the name of progress.

Safeguarding our people is both a moral and legal obligation. It is also a strong business choice, to protect the heart of an organisation's capabilities, continuity and ongoing development. RWSSi specialises in Close Protection, creating a secure, organised and efficient environment for the people in our care – anywhere in the world.

Adapting to the client's needs and profile, Close Protection can be delivered in a range of methods – large or small teams, high profile or very discreet protection.
